

Founded in 2015 at Marmara University, Marmara Flute Orchestra is one of Türkiye's leading flute ensembles, bringing together performers from different generations and musical backgrounds under the direction of Prof. Dr. Ece Karşal. The orchestra is internationally recognized for its innovative projects featuring the full flute family.

The ensemble's repertoire ranges from classical transcriptions to contemporary works, with a particular focus on music by Turkish composers. Marmara Flute Orchestra was selected as "Flute Ensemble of the Year 2025" by the Almanac Global Music Awards, an international award presented by distinguished flute artists from around the world.

Celebrating its 10th artistic anniversary in 2025, the orchestra brought together flutists from across Türkiye to form a giant flute orchestra of 495 performers, achieving a national record with one of the largest flute ensemble performances in the country.

Through concerts, festivals, recordings, and collaborations, the orchestra continues to contribute actively to the development of flute ensemble culture in Türkiye and internationally.
